

3D PHOTOSYNTHESIS EQUATION

I provide light energy

Yellow + Blue =

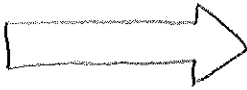

+

Humans breathe me out and plants need me to make food

+

The surface of the Earth is 71% covered by me

=

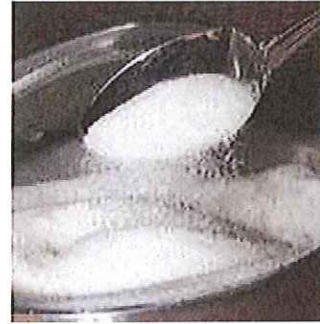

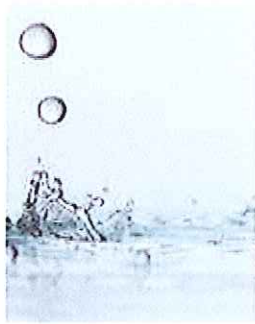

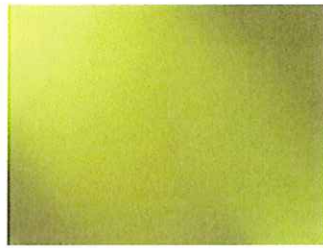

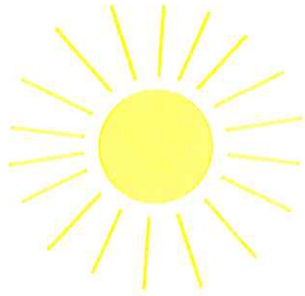

A flame will not burn without me

+

I'm a crystalline sweet made of carbon, hydrogen, and oxygen

Did you know? Photosynthesis means . . .

"put together with light"

Laminate and use images for placement on the photosynthesis equation or supply students with 3D items which represent each of the products/reactants in the equation
