

# When **HOT** and **COLD** Meet

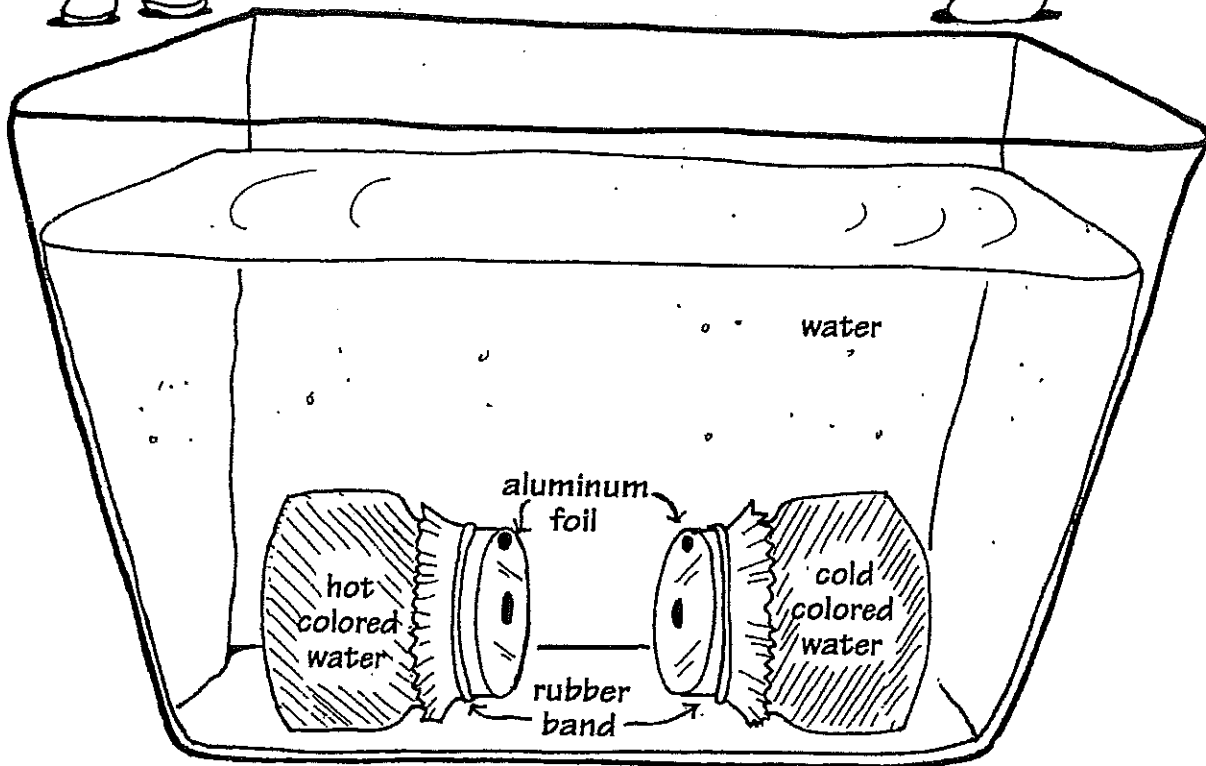

What do you think will happen?

1. Put the bottle of hot colored water into the tank of water. Use a pencil to make two holes in the aluminum foil.

2. Put the bottle of cold colored water into the tank of water. Use a pencil to make two holes in the aluminum foil.

Draw what you see happen.

3. Write about what you saw happen. \_\_\_\_\_

4. Why do you think this happened? \_\_\_\_\_
