

Name: Dacowan Truden

SDI Exit Slip Topic: Urban Farming

Write one **important** fact you learned about urban farming.

You're we winter

Self- Assessment

I totally understand the topic and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.
W	✓	

Name: \_\_\_\_\_

SDI Exit Slip : 3D Printing

Write one or two **important things** you learned about 3D printing

That you can make anything to you what.

Self- Assessment

I totally understand and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.
✓		

Name: \_\_\_\_\_

Design Process Exit Slip

If you were involved in another project based class, could you lead the group in identifying a problem to solve, brainstorming solutions, creating a solution, and evaluating how good your solution might be?

If De Ponds on what it is.

Self- Assessment

I totally understand and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.
	✓	

Name: \_\_\_\_\_

Teamwork Exit Slip

What would your teammates say about your participation in the SDI process?

Write a brief reflection on your involvement in SDI.

I tried to help but they all told me no so I don't know what.

Self- Assessment

I did my best and was a valuable team member	I may need a little more self-motivation as a team member	I was not a good team member, I let others do my work.
	✓	

Name: Patrick Young

SDI Exit Slip Topic: Urban Farming

Write one **important** fact you learned about urban farming.

That it is about farming in the city.

Self- Assessment

I totally understand the topic and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.
	✓	

Name: Patrick Young

SDI Exit Slip : 3D Printing

Write one or two **important things** you learned about 3D printing

you could print anything you want but it'll be small

Self- Assessment

I totally understand and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.
	✓	

Name: Patrick Young

Design Process Exit Slip

If you were involved in another project based class, could you lead the group in identifying a problem to solve, brainstorming solutions, creating a solution, and evaluating how good your solution might be?

Yes I could do that

Self- Assessment

I totally understand and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.
	✓	

Name: Patrick Young

Teamwork Exit Slip

What would your teammates say about your participation in the SDI process?

Write a brief reflection on your involvement in SDI.

We all participated in working and helping each other

Self- Assessment

I did my best and was a valuable team member	I may need a little more self-motivation as a team member	I was not a good team member, I let others do my work.

Name: Bryan Schaeffer  
 SDI Exit Slip Topic: Urban Farming

Write one **important** fact you learned about urban farming.

You can grow plants without soil.

Self- Assessment

I totally understand the topic and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.
✓		

Name: \_\_\_\_\_  
 SDI Exit Slip : 3D Printing  
 Write one or two **important things** you learned about 3D printing

You can use almost any reliable material.

Self- Assessment

I totally understand and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.
✓		

Name: \_\_\_\_\_  
Design Process Exit Slip

If you were involved in another project based class, could you lead the group in identifying a problem to solve, brainstorming solutions, creating a solution, and evaluating how good your solution might be?

I think I could lead a project based class.

Self- Assessment

I totally understand and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.
✓		

Name: \_\_\_\_\_  
Teamwork Exit Slip

What would your teammates say about your participation in the SDI process?

Write a brief reflection on your involvement in SDI.

I think I learned a lot and worked well.

Self- Assessment

I did my best and was a valuable team member	I may need a little more self-motivation as a team member	I was not a good team member, I let others do my work.

Name: Nathan R  
Teamwork Exit Slip

What would your teammates say about your participation in the SDI process?

Write a brief reflection on your involvement in SDI.

It wuz fun!!  
I learned alot

Self- Assessment

<del>I did my best and was a valuable team member</del>	I may need a little more self-motivation as a team member	I was not a good team member. I let others do my work.

Name: Kade Froeber  
 SDI Exit Slip Topic: Urban Farming

Write one **important** fact you learned about urban farming.

you can farm inside.

Self- Assessment

I totally understand the topic and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.

Name: \_\_\_\_\_  
 SDI Exit Slip : 3D Printing

Write one or two **important things** you learned about 3D printing

• 17 layers plastic  
 The pen thing is hot

Self- Assessment

I totally understand and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.

Name: \_\_\_\_\_  
Design Process Exit Slip

If you were involved in another project based class, could you lead the group in identifying a problem to solve, brainstorming solutions, creating a solution, and evaluating how good your solution might be?

yea, I did it his time.

Self- Assessment

I totally understand and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.

Name: \_\_\_\_\_  
Teamwork Exit Slip

What would your teammates say about your participation in the SDI process?

Write a brief reflection on your involvement in SDI.

I built a lot but didn't understand the inside farming part.

Self- Assessment

I did my best and was a valuable team member	I may need a little more self-motivation as a team member	I was not a good team member, I let others do my work.

Name: Charlie

SDI Exit Slip Topic: Urban Farming

Write one **important** fact you learned about urban farming.

I learned that you can grow food on roof tops.

Self- Assessment

I totally understand the topic and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.
	✓	

Name: \_\_\_\_\_

SDI Exit Slip : 3D Printing

Write one or two **important things** you learned about 3D printing

I didn't learn anything.

Self- Assessment

I totally understand and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.
✓		

Name: \_\_\_\_\_

Design Process Exit Slip

If you were involved in another project based class, could you lead the group in identifying a problem to solve, brainstorming solutions, creating a solution, and evaluating how good your solution might be?

yes, because I learned to be organized.

Self- Assessment

I totally understand and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.
✓		

Name: \_\_\_\_\_

Teamwork Exit Slip

What would your teammates say about your participation in the SDI process?

Write a brief reflection on your involvement in SDI.

My teammates would probably did had on paper, but worked hard on 3D models.

Self- Assessment

I did my best and was a valuable team member	I may need a little more self-motivation as a team member	I was not a good team member, I let others do my work.
✓		

Name: Nick Lussier  
 SDI Exit Slip Topic: Urban Farming

Write one **important** fact you learned about urban farming.

You can do it both vertically and horizontally

Self- Assessment

I totally understand the topic and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.
✓		

Name: Nick Lussier  
 SDI Exit Slip : 3D Printing

Write one or two **important things** you learned about 3D printing

- It takes a few tries
  - It's complicated
- \* we didn't learn much about 3D printing so I'm really guessing

Self- Assessment

I totally understand and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.
	✓	

Name: Nick Lussier  
Design Process Exit Slip

If you were involved in another project based class, could you lead the group in identifying a problem to solve, brainstorming solutions, creating a solution, and evaluating how good your solution might be?

Yes because there were certain days when I had to take control even though I didn't want to

Self- Assessment

I totally understand and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.
✓		

Name: Nick Lussier  
Teamwork Exit Slip

What would your teammates say about your participation in the SDI process?

Write a brief reflection on your involvement in SDI.

That I put a lot of work into the physical project

Self- Assessment

I did my best and was a valuable team member	I may need a little more self-motivation as a team member	I was not a good team member, I let others do my work.
✓		

Name: Olivia R.  
 SDI Exit Slip Topic: Urban Farming

Write one important fact you learned about urban farming.

urban farming is helping communities every day and ~~making~~ lives better every day by growing

I totally understand the topic and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.
✓	good food in unique places	

Name: \_\_\_\_\_  
 SDI Exit Slip : 3D Printing

Write one or two important things you learned about 3D printing

3D Printing is very cool it creates things by layering hot plastic

I totally understand and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.
✓		

Name: \_\_\_\_\_  
Design Process Exit Slip

If you were involved in another project based class, could you lead the group in identifying a problem to solve, brainstorming solutions, creating a solution, and evaluating how good your solution might be?

yes!

I'm good

Self- Assessment

I did my best and was a valuable team member	I may need a little more self-motivation as a team member	I was not a good team member, I let others do my work.

Name: Parker  
SDI Exit Slip Topic: Urban Farming

Write one **important** fact you learned about urban farming.

That plants can be grown anywhere.

Self- Assessment

I totally understand the topic and can teach my peers.	I almost have it; but I may need a little more practice.	I'm completely lost.
