# Team Brainstorming Guide Sheet

*Pick someone in the team to record **at least four of your group’s ideas** about why visitors are not coming to the park.*

- 1. Work as a team to brainstorm ideas about why visitors may not be coming to the park.
- 2. Make a list of clues that your team has already found that might fit in with the stakeholders concerns.
- 3. Come up with a plan for your team to make sure you collect the data (evidence) you need! **You will want to use the graphs and your webs for evidence.**

<div>What We Know</div> <div>(clues we’ve already collected)</div> <div>As a team, make a list of pieces of information you have that might be clues about why visitors aren’t coming. Things in this list might be data points you have collected or clues from the park ranger.</div>	<div>What We Need to Find Out</div> <div>(other data we need to collect)</div> <div>Think about things that you need to find out in order to test your ideas about why visitors aren’t coming.</div>
